Apocalypse Journal

👁 46 ✓ 5 ★ 4

Chapter 1 by Aaron Hartmann

March 22, 2016

It's been two months since the apocalypse started. It started when the US decided to nuke North Korea. It turns out that North Korea was testing soldier enhancements, specifically bringing them back to life. The radiation must have mutated the serum.

Well, whatever happened, it spread like hell. We just got done building a wall around the US when the CDC found out that we are all infected, whenever we die we turn into slow moving creatures that want to eat people. I've already seen several people turn, it's not pretty.

I want any survivors who find this journal to write what is happening for them. When this journal is complete I hope that someone will find this and keep hope for humanity.

Signing off- Aaron Hartmann

Chapter 2 by lightningstrikesannah (I'm back!)

Hiding out in an abandoned gas station. It's pretty quiet here. I'm a little hungry, but that's a problem that moldy hot dogs can fix. There seem to be tons here. And I'm already going to turn, so it's either that or dying so not. See more of Story Wars

Chapter 4 by SuperGhostGod REAL

My name is Ethan. I've been hiding in a bunker that was left from the Cold War. I'm in Milwaukee, Wisconsin. Please send help and food. I'm tired of hiding. If you're willing, we could team up sometime. Wait, if you get this journal, I'm probably already dead. I might be attacking you. I'm so sorry. I hope there is hope for you. Be brave. Find the cure. I was working on it in my lab. It's above this bunker. It's the pink liquid in the test tube. Once you drink it, everyone who touches you will be cured, and so on with them.
